

Fallout TTRPG Changes

As much as we love this system, many of the weapons, perks and other aspects infuriated us beyond belief (looking at you dumb luck). We simply had to change them. We also added lovely new weapons, homebrewed and homemade food, gear and items, all for your enjoyment. If you want to check them out, they'll be here.

But where do I go to find my items?

I'm glad you asked! All weapons are here, as well as chems, food, perks, explosives and armour. I'm afraid for everything else you will have to consult the original pdf, **scary**.

- Co-verseers, Tess and Peter.
